

speakers are unmuted, so speakers can talk freely during the session.

Track 2: 8:00 AM– 17:30 PM, February 6, 2013

7:30 – 8:00 AM

Speakers and attendees can login the online conference.

Session 5: Cell death-I

8:00 AM – 10:00 AM

Session Chair: Dr. Romano Maria Fiammetta

8:00 – 8:30 AM

Presentation Title: A role of Sharpin-dependent linear ubiquitination in the cell death signalling pathways.

Fumiyo Ikeda, PhD, Group leader, Institute of Molecular Biotechnology (IMBA) Dr. Bohr-Gasse 3, 1030, Vienna, Austria.

Q & A Session, presenter answers questions from other speakers or attendees.

8:30 – 9:00 AM

Presentation Title: Synergism between enzastaurin and doxorubicin in inducing melanoma apoptosis.

Romano Maria Fiammetta, Professor & Group leader, Department of Biochemistry and Medical Biotechnology, Federico II University of Naples, Naples, Italy.

Q & A Session, presenter answers questions from other speakers or attendees.

9:00 – 9:30 AM

Presentation Title: Autophagy during ageing in Drosophila.

Ioannis P. Nezis, Associate Professor, School of Life Sciences, University of Warwick, Gibbet Hill Campus, Coventry CV4 7AL, UK.

Q & A Session, presenter answers questions from other speakers or attendees.

9:30 – 10:00 AM

Presentation Title: Inducing cancer cell death by gene modified progenitors.

Giulia Grisendi, PhD, Department of Medical and Surgical Sciences for Children & Adults, University Hospital of Modena and Reggio Emilia, Italy.

Q & A Session, presenter answers questions from other speakers or attendees.

Panel Discussion. This session is to provide speakers and attendees with in-depth discussion and networking. You can discuss what you want with other speakers. All speakers are unmuted, so speakers can talk freely during the session.
