

# 10<sup>th</sup> International Symposium on Biological Monitoring in Occupational and Environmental Health (ISBM-10)

**"Biomonitoring for Chemical Risk Assessment and Control"**

1-4 October 2017, Naples, Italy

## PROGRAMME

## Committees

### Scientific and Organizing Committee (SOC)

Maurizio Manno (University of Naples Federico II, ISBM-10 Chair)  
Kate Jones (HSE, SCOT Chair)  
Alessandro Alimonti (ISS, Rome)  
Pietro Apostoli (University of Brescia)  
Giovanni Battista Bartolucci (University of Padua)  
Silvia Fustinoni (University of Milan, SCOT)  
Ivo Iavicoli (University of Naples Federico II, SCNWH)  
Roberto Lucchini (University of Brescia, Mount Sinai New York, SCTM)  
Antonio Mutti (University of Parma)  
Natalia Urszula Pawlas (IOMEM, SCTM)  
Paul A. Schulte (NIOSH, SCNWH)  
Francesco Violante (University of Bologna, SIMLII)

### Scientific International Advisory Committee (SIAC)

Arnulfo Albores (Mexico)  
Andrea Baccarelli (United States)  
Kalavati Channa (South Africa)  
John Cocker (United Kingdom)  
Wolfgang Dekant (Germany)  
Francesco De Matteis (United Kingdom)  
Masayuki Ikeda (Japan)  
Larry K. Lowry (United States)  
Jose Salvador Lepera (Brasil)  
Len Levy (United Kingdom)  
Dominique Lison (Belgium)  
Gunnar Johanson (Sweden)  
Christoph Klein (European Commission)  
Gunnar Nordberg (Sweden)  
Monica Nordberg (Sweden)  
Stephen M. Rappaport (United States)  
Beerappa Ravichandran (India)  
Paul Scheepers (Netherlands)  
Tiina Santonen (Finland)  
Claude Viau (Canada)

Dear Colleagues,

We are delighted to welcome you to the 10th International Symposium on Biological Monitoring. As you probably know, ISBM-10 is organized by the Scientific Committee of Occupational Toxicology (SCOT) of the International Commission on Occupational Health (ICOH), in collaboration with the University of Naples Federico II and the two other scientific committees of ICOH, "Toxicology of Metals" (SCTM) and "Nanomaterial Workers' Health" (SCNWH).

The Symposium will bring together the world's leading scientists, experts, practitioners and students in biological monitoring to discuss and share the state-of-art on biomarkers of exposure, effect and susceptibility to occupational and environmental chemicals. ISBM-10 aims to present new research and methods on biomarkers, and to promote the use of biomonitoring data as part of a prevention strategy in workplaces and in the general environment and, therefore, it will also be of interest to professionals involved in risk assessment and control through the use and interpretation of human biomonitoring data.

As for previous symposia, traditionally held between two main ICOH congresses, ISBM-10 will be a renewed opportunity to share global state-of-art research in biomonitoring for occupational and environmental health, and for risk assessment and management. As in the SCOT tradition, the selected Proceedings of ISBM-10 will be published in "Toxicology Letters" (Elsevier).

ISBM-10 will also be an opportunity to admire the beauties of Naples and its surroundings, including Pompeii, the Amalfi Coast and the beautiful islands of the bay of Naples, Capri, Ischia and Procida.

Welcome to Naples!

Maurizio Manno  
Chair of ISBM-10

Kate Jones  
Chair of SCOT

General information	4
Timetable	6
Keynote lecture 1	10
Keynote lecture 2	10
Plenary Session 1. <i>The role of biomonitoring in modern risk assessment</i>	10
Poster Session 1	
Topic 1: <i>Effect and susceptibility biomarkers</i>	11
Topic 2: <i>General issues in biomonitoring</i>	12
Topic 3: <i>Metals</i>	13
Keynote lecture 3	14
Plenary Session 2. <i>Advances in metal biomonitoring</i>	14
Special Session 1. <i>Human biomonitoring in chemical disasters and accidents</i>	15
Oral communications Session 1. <i>Population studies</i>	16
Oral communications Session 2. <i>Occupational exposure biomarkers 1</i>	17
Keynote lecture 4	18
Plenary Session 3. <i>Nanomaterials</i>	18
Special Session 2. <i>Novelties in the use of human biomonitoring to characterise pesticide exposure</i>	19
Oral communications Session 3. <i>Effect biomarkers</i>	20
Oral communications Session 4. <i>Occupational exposure biomarkers 2</i>	21
Poster Session 2	
Topic 4: <i>Exposure biomarkers</i>	22
Topic 5: <i>New methods and matrices</i>	23
Topic 6: <i>Pesticides</i>	24
Keynote lecture 5	25
Oral communications Session 5. <i>Metals</i>	25
Oral communications Session 6. <i>Biomonitoring in risk assessment</i>	26
Special Session 3. <i>Antineoplastic drugs in urine</i>	27
Oral communications Session 7. <i>New developments in exposure biomarkers</i>	28
Oral communications Session 8. <i>Genetics, epigenetics and omics</i>	29
Special Session 4. <i>Alternative matrices</i>	30
SCOT-SCOEL Joint Session. <i>Biological limit values and biological guideline values: an international overview</i>	31
Keynote lecture 6	31
Keynote lecture 7	31
SCOT Celebration	31
Closing remarks	31

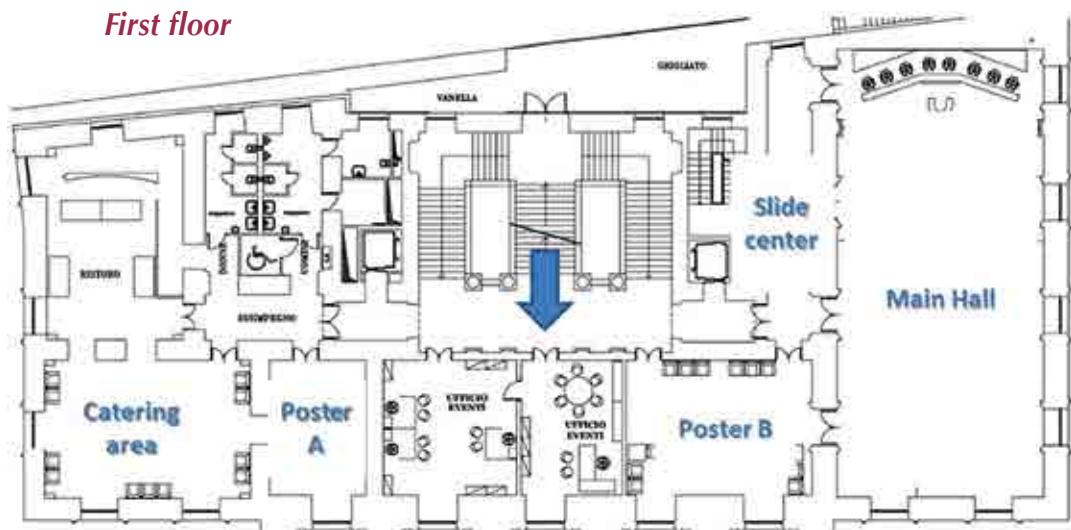

## Venue

Congress Center of the University of Naples Federico II (Via Partenope, 36)

### Ground floor

### First floor

## Social dinner on Tuesday 3 October 2017

The social dinner will take place in a restaurant overlooking the Bay of Naples. A bus transfer will depart at 20:00 from opposite the Hotel Excelsior (100 mt to the right facing the Congress venue).

The cost is € 80.00 per person and includes: bus transfer to the venue, 4 course meal, and live music.

**Tickets may be purchased at the Secretariat Desk no later than Monday 2 October.**

## Badges

Only registered participants can access the Congress Center. Please wear your badge at all times during the congress.

## Registration and information desk

The Registration and Information desk is located on the ground floor of the Congress Center and will be open at the following times:

2 Oct 8:30 - 18:30

3 Oct 8:30 - 18:30

4 Oct 8:30 - 14:30

On 1 October, a pre-registration desk will be open from 18:30 to 20:30 at the Hotel Royal Continental (Via Partenope, 38-44).

## Coffee breaks and lunches

Coffee breaks and lunches during the meeting will be served in the catering area on the 1st floor of the Congress Center.

## WI-FI

Wi-Fi is available in the Congress Center.

## Information for presenters

**ORAL SESSIONS:** Speakers must deliver their presentation to the **Slide Center** at least 1 hour before the beginning of their session. If presentations have special features (e.g., videos, etc.) please advise the Slide Center at least 4 hours before the start of the session. Speakers are kindly requested to keep within the allotted time. Chairpersons have been instructed to ensure that all speakers keep to the assigned time frame.

**POSTER SESSIONS:** Presenters are requested to stand by their poster(s) during their poster session from 13.45 to 14.30. Set up and removal times: posters must be hung, **on the day of the session only**, preferably between 8.30-9.30, and must be removed at the end of the same day not later than 19.00. The Organizing Secretariat will not be held responsible for posters that have not been removed. Tape will be provided in the poster area.

### Abstract book

The abstract book is included in the Congress Kit. An electronic copy of the abstract book is available for download from the conference website [www.centercongressi.com/isbm10](http://www.centercongressi.com/isbm10).

## 2 October 2017

TIME	MAIN HALL	HALL A	HALL B	POSTER AREA
9.30 – 10.00	Opening Session			
10.00 – 10.30	Keynote Lecture 1			
10.30 – 11.00	Keynote Lecture 2			
11.00 – 11.30	Coffee break			
11.30 – 13.00	Plenary Session 1 <i>The role of biomonitoring in modern risk assessment</i>			
13.00 – 13.45	Lunch			
13.45 – 14.30				Poster Session
14.30 – 15.00	Keynote Lecture 3			
15.00 – 16.30	Plenary Session 2 <i>Advances in metal biomonitoring</i>			
16.30 – 17.00	Coffee break			
17.00 – 18.30	Special Session 1 <i>Human biomonitoring in chemical disasters and accidents</i>	Oral communications Session 1 <i>Population studies</i>	Oral communications Session 2 <i>Occupational exposure biomarkers 1</i>	

## 3 October 2017

TIME	MAIN HALL	HALL A	HALL B	POSTER AREA
9.00 – 9.30	Keynote Lecture 4			
9.30 – 11.00	Plenary Session 3 <i>Nanomaterials</i>			
11.00 – 11.30	Coffee break			
11.30 – 13.00	Special Session 2 <i>Novelties in the use of human biomonitoring to characterise pesticide exposure</i>	Oral communications Session 3 <i>Effect biomarkers</i>	Oral communications Session 4 <i>Occupational exposure biomarkers 2</i>	
13.00 – 13.45	Lunch			
13.45 – 14.30				Poster Session
14.30 – 15.00	Keynote Lecture 5			
15.10 – 16.40	Oral communications Session 5 <i>Metals</i>	Oral communications Session 6 <i>Biomonitoring in risk assessment</i>	Special Session 3 <i>Antineoplastic drugs in urine</i>	
16.40 – 17.00	Coffee break			
17.00 – 18.30	Oral communications Session 7 <i>New developments in exposure biomarkers</i>	Oral communications Session 8 <i>Genetics, epigenetics and omics</i>	Special Session 4 <i>Alternative matrices</i>	
	Social dinner			

**4 October 2017**

TIME	MAIN HALL			
9.00 – 11.00	SCOT-SCOEL Joint Session. <i>Biological limit values and biological guideline values: an international overview</i>			
11.00 – 11.30	Coffee break			
11.30 – 12.00	Keynote Lecture 6			
12.00 – 12.30	Keynote Lecture 7			
12.30 – 13.00	SCOT Celebration and closing remarks			

**18.30 - 20.30**      **Registration opens at Hotel Royal Continental**

**19.00 - 21.00**      **Welcome Cocktail**

## Venues

*On 1 October only  
the venue will be Hotel Royal Continental (Via Partenope, 38/44, Naples).*

*On 2,3 and 4 October  
the venue will be the Congress Center of the University of Naples Federico II  
(Via Partenope, 36, Naples).*

## **09:30-10:00      Opening Session**

## **10:00-10:30    Keynote lecture 1.**

## **Increased precision in exposure and risk assessment by integration of biomonitoring: the cases of bisphenol A and phthalates**

*Wolfgang Dekant*

*University of Wuerzburg, Germany*

Chair: Kate Jones (UK)

## **10:30-11:00    Keynote lecture 2.**

## Biomonitoring in the workplace: recent experience from REACH applications for authorisation

Tim Bowmer

European Chemicals Agency, Risk Assessment Committee (ECHA-RAC), Helsinki, Finland

11:00-11:30 Coffee Break

## **11:30-13:00 Plenary Session 1.**

## The role of biomonitoring in modern risk assessment

Chairs: John Cocker (UK) and Claude Viau (CA)

## Improving risk assessment of chemicals by the use of human biomonitoring - HBM4EU Project Activities

Tiina Santonen<sup>\*</sup>, P. Alvito, J. Bessems, T. Borges, D. Brunet, J. Buekers, C. Cornelis, J. van Engelen, M.C. Gonzalez Caballero, T. Humar-Juric, M. Heinälä, A. Klaus, L. Kononenko, L. Krul, F. Lamkarkach, H. Louro, A. Pronk, J-N. Ormsby, C. Rousselle, B. Schaddelee-Scholten, M.J. Silva, R. Stierum, S. Viegas, A.M. Vinggaard, T. Vermeire, M. Woutersen

\*Finnish Institute of Occupational Health, Helsinki, Finland

## The importance of toxicokinetics in the interpretation of human biomonitoring data

Peter J. Boogaard\*, G. Bachler

\*Wageningen University & Research, The Netherlands, and Shell Health, Shell International bv, The Hague, The Netherlands

## **Biological monitoring (BM) of workers exposed to inorganic molybdenum (Mo) compounds and its use in risk assessment**

Len Levy

Cranfield University, UK

## Bio-monitoring of occupational exposures to carbon disulphide: A scoping review

D. Lipsa, K. Nagy, Demosthenes Papameletiou\*, N. Stilianakis, P. Vaes

\*FCIRC

13:00-13:45 Lunch

## 13:45-14:30 Poster Session 1

**Topic 1: Effect and susceptibility biomarkers**

Chairs: Ivo lavicoli (IT) and Jaroslav Mráz (CZ)

- P\_02** Biomarkers of early genotoxicity and oxidative stress for occupational risk assessment of exposure to styrene in the fibreglass reinforced plastic industry  
D. Cavallo, G. Tranfo, C.L. Ursini, A.M. Fresegnia, A. Ciervo, R. Maiello, E. Paci, D. Piginis, M. Gherardi, M.P. Gatto, S. lavicoli  
*INAIL, Rome, Italy*
- P\_03** Evaluation of sugarcane and orange vinasses phytotoxicity by means of germination and root growth tests in lettuce seeds  
C.P. de Souza, C.F.H. Garcia, M.C.F. Santos, R.B. de Souza, C.S. Fontanetti, D.F. de Angelis, D.A.N.O. Leite, C.A. Christofoletti  
*Centro Universitário Hermínio Ometto - FHO|Uniararas, Araras, São Paulo, Brazil*
- P\_04** Evaluation of the cytotoxic and genotoxic potential of the Cactinea NutraceutaTM in culture of liver hepatocellular carcinoma HepG2  
F.F. Navarro, F.D. Campos-Pereira, M.M. Roberto, C. A. Christofoletti, M.A. Marin-Morales  
*Centro Universitário Hermínio Ometto - FHO|Uniararas, Araras, São Paulo, Brazil*
- P\_05** Assessment of oxidative damage in workers exposed to low-dose benzene  
C. Costa, M. Teodoro, G. Briguglio, S. Gangemi, S. Catania, V. Rapisarda, C. Fenga  
*University of Messina, Italy*
- P\_07** Oxidative damage and urinary mutagenicity in children living in industrial contaminated sites of Priolo (Italy)  
C. Ledda, M. Bracci, D. Cinà, M. Pane, P. Pavone, V. Rapisarda  
*University of Catania, Italy*
- P\_08** Analysis of the toxic potential of treated vinasse using an integrated treatment system with the CWS: histopathology of Nile tilapia (*Oreochromis niloticus*)  
A.C.C. Marcato, C.P. de Souza, C. Moreira-de-Sousa, C.S. Fontanetti  
*UNESP - São Paulo State University, Rio Claro, Brazil*
- P\_09** PON1 status and HDL subclasses as cardiovascular disease biomarkers  
I.M. Medina Díaz, F.E. Murillo-González, N. Ponce-Ruiz, J. Ponce-Gallegos, A.E. Rojas-García, Y.Y. Bernal-Hernández, B.S. Barrón-Vivanco, C.A. González-Árias, M. Torres-Tamayo, G. Cardoso-Saldaña, E. Jorge-Galarza, J.F. López Flores  
*Universidad Autónoma de Nayarit, Mexico*
- P\_10** DNA repair capacity and its association with the expression of DNA repair genes in newborns from a polluted urban city  
N. Montes-Castro, I. Alvarado-Cruz, and B. Quintanilla-Vega  
*Toxicology Department, CINVESTAV, Mexico City, Mexico*
- P\_11** Effects of occupational toluene and noise exposure on hearing loss  
Z. Vadvjal Gruden, P. Gruden, L. M. Beović  
*EOS Zora Vadvjal Gruden Occupational Medicine Clinic, Kranj, Slovenia*
- P\_12** Comparing the genotoxicity of a multiwalled carbon nanotube and crocidolite towards the evaluation of its potential impact on the workers' health  
C. Ventura, A. Sousa-Uva, M.João Silva  
*Instituto Nacional de Saúde Doutor Ricardo Jorge, Lisboa*

**Topic 2: General issues in biomonitoring**

Chairs: Giuseppe De Palma (IT) and Craig Sams (UK)

- P\_14** Human biomonitoring for Europe (HBM4EU): the role of Italy  
*A. Alimonti, A. Pino, B. Bocca, A.M. Ingelido, A. Abballe, A.L. Iamiceli, F. Ruggieri, E. De Felip  
Istituto Superiore di Sanità, Rome, Italy*
- P\_15** Italian reference values: evolution and interpretative contribution also for the evaluation of exposures to carcinogenic/mutagenic substances  
*M.C. Aprea, M. Bettinelli, I. Iavicoli, P. Lovreglio, S. Negri, L. Perbellini, A. Perico, M.C. Ricossa, F. Salomon  
Azienda USL Toscana Sud Est, Siena, Italy*
- P\_16** Smoking habit, biomarkers and risk perception  
L. Campo, E. Polledri, R. Mercadante, C. Colombo, S. Sucato, P. Missineo, L. Boniardi, L. Olgiati, *S. Fustinoni*  
*Department of Clinical and Community Sciences, University of Milan and Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milan, Italy*
- P\_17** Time-trends of the German population exposure to contaminants using the part for human samples of the German environmental specimen bank (ESB)  
*J. Göen, D. Lermen, M. Rüther, A. Conrad, J. Hildebrand, M. Bartel-Steinbach, T. Weber, M. Kolossa-Gehring  
University of Erlangen-Nuremberg, Erlangen, Germany*
- P\_18** Human biomonitoring – The Austrian experience  
*H. Moshammer, H-P. Hutter  
Medical University of Vienna, Austria*
- P\_19** Cytotoxics in medical care: questions from occupational professionals and caregivers about biological monitoring  
*J. Passeron, F. Pillière, S. Ndaw, O. Hanser, A. Guilleux  
National Research and Safety Institute for the Prevention of Occupational Accidents and Diseases (INRS), Nancy, France*
- P\_20** A biobank for studies of normal variability of biomarkers  
*G. Sallsten, L. Barregard  
University of Gothenburg, Sweden*
- P\_21** Overview of human biomonitoring initiatives under the government of Canada's chemicals management plan (2007-2017)  
*A. St-Amand, C. Khoury  
Government of Canada, Ottawa, Canada*

**Topic 3: Metals**

Chairs: Alessandro Alimonti (IT) and Gerd Sallsten (SE)

- P\_22** Traditional remedies and risk of heavy metal poisoning  
*A. Bendjamaa, D. Boukrinat, M.C. Chekkour, B. Alamir*  
*University Hospital, Oran, Algeria*
- P\_23** Estimation of occupational exposure to metals in a paint factory  
*S. Djelad-Kaddour, A. Younes, A. Bendjamaa, S. Chaoui, B. Rezk-kallah, H. Rezk-kallah*  
*University Hospital, Oran, Algeria*
- P\_24** A role of enterobacteria in arsenic intake from seaweed  
*A. Hata, M. Hasegawa, K. Yamanaka, Y. Endo, Y. Yamano, T. Yamauchi, N. Fujitani, G. Endo*  
*Chiba Institute of Science, Chiba, Japan*
- P\_25** Occupational exposure to chromium and nickel in thermal spraying workers: Preliminary biological and atmospheric assessments  
*N. Jacoby, G. Antoine, P. Biette, F. Jeandel, A.-M. Lambert-Xolin, M. Melczer, A. Rémy, V. Matera,*  
*JP Elcabache, D. Rousset, A. Robert*  
*Institut National de Recherche et de Sécurité (INRS), Vandoeuvre Cedex, France*
- P\_26** Oxidative DNA damage and lipids peroxidation as effect biomarkers of mercury-exposed workers  
*R. Kuras, B. Janasik, M. Stanislawska, K. Mikolajewska, J. Gromadzinska, W. Wasowicz*  
*Nofer Institute of Occupational Medicine, Lodz, Poland*
- P\_27** Effect of personal protective equipment in workers' metal exposures  
*M. Jumpponen, P. Heikkilä, H. Rönkkölä, J. Laitinen*  
*Finnish Institute of Occupational Health, Helsinki, Finland*
- P\_29** Recommendation of biological values for hexavalent chromium and its compounds for the biomonitoring of chemicals at workplace  
*F. Lamkarkach, F. Sissoko, D. Brunet and the Scientific Expert Committee on Occupational Exposure Limits*  
*French Agency for Food, Environmental and Occupational Health and Safety (ANSES), Maisons-Alfort, France*
- P\_30** Chronic kidney disease of unknown origin in sugarcane industry: Metals analysis in biological samples  
*E.-T. Smpokou, B. Caplin, J. Norman, J. Le Blond, J. Morton*  
*Health and Safety Executive, Buxton, UK*
- P\_31** Metals biomonitoring in hair, blood and urine in the Northwest Territories, Canada  
*M. Ratelle, M. Bouchard, B. Laird*  
*University of Waterloo, Ontario, Canada*
- P\_32** Associations of blood lead levels with neuropsychological symptoms and delta-aminolevulinic acid dehydratase genotype in glass cutters  
*T. Ratkajec*  
*Medicina dela Rogaska, Rogaska Slatina, Slovenia*
- P\_33** Recommendation of biological values for beryllium and its compounds for the biomonitoring of chemicals at workplace  
*F. Sissoko, F. Lamkarkach, D. Brunet and the ANSES Scientific Expert Committee on Occupational Exposure Limits*  
*French Agency for Food, Environmental and Occupational Health and Safety (ANSES), Maisons-Alfort, France*
- P\_34** *Nrf2, Keap1* promoters and DNA methylation as early effects biomarkers of inorganic arsenic exposure  
*B. Janasik, E. Reszka, M. Stanislawska, E. Jablonska, R. Kuras, E. Wieczorek, B. Malachowska, W. Fendler, W. Wasowicz*  
*Nofer Institute of Occupational Medicine, Lódz, Poland*

**14:30-15:00 Keynote lecture 3.**

Chair: Lars Barregard (SE)

**Assessing exposure to metals using biomonitoring. Achievements and challenges.**

*Benoit Nemery de Bellevaux*

*Catholic University of Leuven, Belgium*

**15:00-16:30 Plenary Session 2. (in collaboration between SCOT and SCTM)**

**Advances in metal biomonitoring**

Chairs: Silvia Fustinoni (IT) and Natalia Pawlas (PL)

**Biomarkers of metal exposure and toxicity in urine: new opportunities and new challenges**

*Alfred Bernard*

*Catholic University of Leuven, Belgium*

**Effects of environmental and occupational exposure to lead and other xenobiotics on telomere length**

Natalia Pawlas\*, A. Kozłowska , A. Kasperekzyk, M. Dobrakowski, S. Kasperekzyk

\*Institute of Occupational Medicine and Environmental Health, Sosnowiec, Poland

**Blood lead levels following consumption of game meat in Italy**

Silvia Fustinoni\*, S. Sucato, D. Consonni, P.M. Mannucci, A. Moretto

\*University of Milan and Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milan, Italy

**Urinary manganese related to exposure among manganese alloy production workers**

Dag Ellingsen\*, B. Berlinger, K. Dahl, Y. Thomassen

\*National Institute of Occupational Health, Oslo, Norway

**Biological monitoring of inorganic mercury – can the kidney burden be estimated?**

Gerd Sallsten\*, M. Akerstrom

\*Sahlgrenska University Hospital and Academy, University of Gothenburg, Sweden

**Health-based guidance values for blood lead and urinary cadmium – do they protect us?**

*Lars Barregard*

*Sahlgrenska University Hospital and Academy, University of Gothenburg, Sweden*

**16:30-17:00 Coffee Break**

**17:00-18:30 Special Session 1.**

**Human biomonitoring in chemical disasters and accidents**

Chairs: Gunnar Johanson (SE) and Paul T.J. Scheepers (NL)

**Human biological monitoring following chemical incidents – experience with a guideline in The Netherlands**

Paul T.J. Scheepers\*, C. Gielkens, N. Nijhuis

\*Radboud Institute for Health Sciences, Radboudumc, Nijmegen, The Netherlands

**Human biomonitoring (HBM) after chemical incidents – Concepts, examples and lessons learned**

Michael Bader\*, S. Bäcker, T. Jäger, G. Van Bortel, S. Webendörfer, C. Oberlinne, S. Lang

\*BASF SE, Ludwigshafen, Germany

**Human biomonitoring as a tool of objective exposure assessment: A case-study of a major train accident with acrylonitrile in Belgium**

An Van Nieuwenhuyse\*, T. De Smedt, K. Simons, C. Stove, P. De Paepe, B. Nemery, M. Bader, C. Vleminckx, I. Van Overmeire, S. Fierens, B. Mertens, K. De Cremer, T. Goën, T. Schettgen, H. Van Oyen, J. Van Loco

\*Scientific Institute of Public Health, Brussels, Belgium

**High PFAS in serum in Swedish populations exposed to fire fighting foam contaminated drinking water**

Christian Lindh\*, K. Jakobsson, K. Forsell, K. Scott, T. Fletcher

\*Lund University, Sweden

**Incident preparedness – Identification of chemicals suitable for human biomonitoring (HBM)**

Gunnar Johanson

Karolinska Institutet, Stockholm, Sweden

**17:00-18:30 Oral communications Session 1.****Population studies**

Chairs: Annie St-Amand (CA) and Thomas Göen (DE)

**Biomonitoring of some common non-persistent pesticides and dietary determinants in Swedish populations**Moosa H. Faniband\*, M. Littorin, C. H. Lindh

\*Lund University, Sweden

**Assessment of the environmental levels and predictors of exposure to some endocrine disruptors in a Belgian adult population: focus on mercury, cadmium, organochlorine pesticides and PCBs**Catherine Pirard\*, S. Compere, K. Firquet, C. Charlier

\*CHU of Liège, Belgium

**Exposure to environmental chemicals in adolescents in Flanders: geographical and temporal variability**W. Baeyens, E. Govarts, L. Bruckers, E. Den Hond, V. Nelen, S. Dehenauw , I. Sioen, T. Nawrot, M. Plusquin, A. Vriens, A. Covaci, I. Loots, B. Morrens, D. Coertjens, N. Van Larebeke, Sam De Craemer\*, K. Croes, N. Lambrechts, A. Colles, G. Schoeters

\*Vrije Universiteit Brussel, Belgium

**Biomonitoring of organophosphorus flame retardants in a Swedish population: Results from four investigations between years 2000 – 2013**Erika Norén\*, C.H. Lindh, M. Littorin, M. Maxe, B.A.G. Jönsson, E. Larsson

\*Lund University , Sweden

**Contaminant and nutrient biomonitoring in the Northwest Territories, Canada: Shedding light on the risks and benefits from food choices**M. Ratelle, M. Laird, H. Swanson, Brian Laird\*

\*University of Waterloo, Ontario, Canada

**The Alberta Biomonitoring Program phase three: environmental chemicals in pooled maternal and cord serum samples**Amy MacDonald\*, D. Kinniburgh, S. Gabos, B. Lee, P. Cheung, F. Ackah, J. Graydon, A. Lyon, J. Jarrell, G. Benade

\* University of Calgary, Alberta, Canada

**17:00-18:30 Oral communications Session 2.****Occupational exposure biomarkers 1**

Chairs: Enrico Bergamaschi (IT) and Susana Viegas (PT)

**Exhaled breath condensate: A novel matrix for biological monitoring to assess occupational exposure to respirable crystalline silica**Jackie Morton\*, J. Staff, E. Leese

\*Health &amp; Safety Laboratory, Buxton, UK

**Occupational exposure to BTEX in an oil refinery assessed by urine analysis:  
Comparison between standard work and special clean-up**Amandine Erb\*, P. Marsan, M. Burgart, A. Rémy, F. Jeandel, A.-M. Lambert-Xolin, R. Gaudin, P. Biette, O. Hanser, A. Robert

\*Institut National de Recherche et de Sécurité (INRS), Vandoeuvre, France

**Using two different urinary biomarkers of benzo(a)pyrene to assess occupational exposure and individual cancer susceptibility**Anne Maitre\*, D. Barbeau, M. Marques, R. Persoons

\*Biology and Pathology Institute, Grenoble Cedex 9, France

**Occupational exposure of cashiers to Bisphenol S, alternative of Bisphenol A in thermal paper**Sophie Ndaw\*, A. Robert, A. Rémy

\*Institut National de Recherche et de Sécurité (INRS), Vandoeuvre, France

**Evaluation of the exposure to solvents in workers from a thermoplastic panels factory:  
Air, dermal and bio-monitoring**Matteo Creta\*, H. Moldovan , S. Voidazan , L. Godderis, J. Vanoorbeek, R. Cornelius Duca

\*University of Leuven, Belgium

**Biomonitoring of the herbicide glyphosate in a population from Zarcero, Costa Rica**Moosa H. Faniband\*, M. Littorin, A.M. Mora, M. Winkler, S. Fuhrmann, C.H. Lindh

\*Lund University, Sweden

**09:00-09:30 Keynote lecture 4.**

Chair: Ivo lavicoli (IT)

**Biological monitoring of workers exposed to engineered nanomaterials**Paul A. Schulte\*, I. lavicoli, V. Leso

\*National Institute for Occupational Safety and Health, Cincinnati, OH, USA

**09:30-11:00 Plenary Session 3. (in collaboration between SCOT and SCNWH)****Nanomaterials**

Chairs: Ivo lavicoli (IT) and Paul A. Schulte (US)

**Risk assessment and management of engineered nanomaterials: The relevance of susceptibility biomonitoring**Ivo lavicoli\*, V. Leso, P.A. Schulte

\*University of Naples Federico II, Italy

**Biomonitoring of oxidative stress and inflammation in nanocomposites production workers**Daniela Pelclova\*, V. Zdimal, S. Dvorackova, M. Komarc, S. Vlckova, Z. Fenclova, J. Schwarz, J. Ondracek, O. Makes, P. Kacer, S. Zacharov

\*Charles University, Prague, Czech Republic

## 13:45-14:30 Poster Session 2

## Topic 4: Exposure biomarkers

Chairs: Arnulfo Albores (MX) and Kate Jones (UK)

- P\_35 Simultaneous determination of urinary S-phenylmercapturic and trans,trans muconic acids by solidphase microextraction and gas chromatography/mass spectrometry  
*S. Dugheri, A. Bonari, I. Pompilio, N. Mucci, M. Montalti, M. Gentili, G. Arcangeli*  
*Università degli Studi di Firenze, Firenze, Italy*
- P\_36 Evaluation of the professional carbon monoxide exposure  
*N. Belabbaci, R. Tekkouk, I. H. Yermes, N. Lachgueur*  
*University of Oran, Algeria*
- P\_37 Results of a 1-vinyl-2-pyrrolidone metabolism study in Sprague-Dawley rats  
*J. Bertram, T. Kraus, J. Steitz, R. Tolba, T. Schettgen*  
*RWTH Aachen University, Germany*
- P\_38 A review on human biomonitoring following exposure to solid waste incinerator emissions  
*L. Campo, P. Bechtold, L. Borsari, S. Fustinoni*  
*Università degli Studi di Milano and Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milan, Italy*
- P\_39 Decline in breath ethanol after inhalation of ethanol vapors and use of mouth wash  
*L. Ernstgård, A. Pexaras, G. Johanson*  
*Karolinska Institutet, Stockholm, Sweden*
- P\_40 Inhalational and dermal exposure of deuterium-labelled bis (2-ethylhexyl) phthalate [DEHP] and diethyl phthalate [DEP] and subsequent biomonitoring in human urine  
*A. M. Krais, C. Andersen, J. H. Pagels, C.H. Lindh, A. Gudmundsson, A. Wierzbicka*  
*Lund University, Sweden*
- P\_41 Can Skellefteå model reduce firefighters' exposure to chemical agents in operative work?  
*J. Laitinen, H. Lindholm, M. Aatamila, S. Hyttinen and P. Karisola*  
*Finnish Institute of Occupational Health, Helsinki, Finland*
- P\_42 Perfluorinated compounds biomonitoring in serum of Italian children  
*C. Ledda, G. La Torre, D. Cinà, P. Pavone, C. Pomara, V. Rapisarda*  
*University of Catania, Italy*
- P\_43 Urinary biomarkers for exposure to diesel exhaust  
*C. Sams, K. Jones*  
*Health & Safety Executive, Harpur Hill, Buxton, UK*
- P\_44 HBM4EU –Science and policy for a healthy future  
*Tiina Santonen on the behalf of HBM4EU consortium*  
*Finnish Institute of Occupational Health, Helsinki, Finland*
- P\_45 Occupational exposure to mycotoxins. A reality in Portuguese bakeries?  
*S. Viegas, B. Osteresch, A. Cebola de Oliveira, B. Cramer, C. Viegas*  
*GIAS, ESTeSL, Instituto Politécnico de Lisboa, Lisbon, Portugal*

**Topic 5: New methods and matrices**

Chairs: Silvia Fustinoni (IT) and Bernd Rossbach (DE)

- P\_46** Monitoring the exposure of the population to metal-nanoparticles: A new analytical challenge  
*B. Bocca, F. Petrucci, S. Caimi, A. Alimonti  
Istituto Superiore di Sanità, Rome, Italy*
- P\_47** Analysis of gene polymorphisms in urinary cells  
*P. Chiarella, D. Carbonari, P. Capone, D. Cavallo, S. Iavicoli, A. Mansi, R. Sisto, G. Tranfao  
INAIL, Rome, Italy*
- P\_48** Saliva as a matrix for ototoxic solvents absorption  
*M. Gherardi, M.P. Gatto, A. Gordiani, N. L'Episcopo  
INAIL, Rome, Italy*
- P\_49** Biological monitoring of bisphenol S in urine of occupationally non-exposed German adults  
*T. Jäger, S. Bäcker, O. Schmid, C. Ehnes, M. Bader  
BASF SE, Ludwigshafen, Germany*
- P\_51** Genotoxicity assessment of mobile phone radiation in exfoliated buccal cells in human samples  
*F.M. de Oliveira, A.M. Carmona, C. Ladeira  
Instituto Politécnico de Lisboa (ESTeSL/IPL), Portugal*
- P\_52** Development of biological reference material for proficiency test program - Urinary total arsenic and phenol  
*H. Lee and M. Lee  
Occupational Safety and Health Research Institute (OSHRI), KOSHA, Republic of Korea*
- P\_53** Determination of N-(2-hydroxyethyl)valine in globin of ethylene oxide-exposed workers using total acid hydrolysis and HPLC/MS/MS  
*J. Mráz, I. Hanzlíková, Š. Dušková, L. Dabrowská, H. Chrástecká, M. Tvrďková, R. Vajtrová, I. Linhart  
National Institute of Public Health, Prague, Czech Republic*
- P\_54** Metabolomic findings in young obese men and controls  
*K. Osadnik, T. Osadnik, N. Pawlas, M. Gawlita, R. Reguła, K. Bujak, M. Fronczek, M. Lejawa, J. Jaworska, J. Strzelczyk, M. Gaśior, J. Kasprzyk  
Institute of Occupational Medicine and Environmental Health, Sosnowiec, Poland*
- P\_55** New perspectives on the properties of the protein corona from sequential elution using detergents  
*M. Pink, W. Lin, D. Segets, N. Verma, W. Peukert, S. Schmitz-Spanke  
Institute and Outpatient Clinic of Occupational, Social and Environmental Medicine, Friedrich Alexander-Universität Erlangen-Nürnberg (FAU), Erlangen, Germany*
- P\_56** A method to assess mercapturic acids in urine as biomarkers of exposure to electrophilic chemicals in tobacco smoke  
*E. Polledri, R. Mercadante, L. Campo, S. Fustinoni  
Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milano, Italy*
- P\_57** Determination of n-heptane metabolites in urine by headspace-solid phase dynamic extraction-gas chromatography/mass spectrometry (HS-SPDE-GC/MS)  
*B. Rossbach, P. Kegel, S. Letzel  
Johannes Gutenberg University, Mainz, Germany*
- P\_58** Use of buccal micronucleus cytome assay to evaluate genotoxic and cytotoxic effects of antineoplastic drugs in workers of different Italian hospitals  
*C.L. Ursini, D. Cavallo, E. Omdeo Salè, A.M. Fresegna, A. Ciervo, C. Jemos, R. Maiello, G. Buresti, C. Colosio, F.M. Rubino, P. Delrio, P. Maiolino, P. Marchetti, R. Boccia, S. Iavicoli  
INAIL, Rome, Italy*

**Topic 6: Pesticides**

Chairs: Cristina Aprea (IT) and Thomas Göen (DE)

- P\_59** Butyrylcholinesterase activity and lipids parameters in workers occupationally exposed to pesticides  
*B. S. Barrón-Vivanco, I.B. Molina-Pintor, Y.Y. Bernal-Hernández, A.E. Rojas-García, I.M. Medina-Díaz, C.A. González-Arias*  
*Universidad Autónoma de Nayarit (UAN), Tepic, Mexico*
- P\_60** Cholinesterase activity in indigenous Mexican farmworkers exposed to pesticides  
*D.M. Paredes-Céspedes, G. López-Martínez, N. Gómez-Plata, B. Rojas-Cárdenas, A.E. Rojas-García, I.M. Medina-Díaz, B.S Barrón-Vivanco, C.A. González-Arias, J.F. López Flores, Y.Y. Bernal-Hernández*  
*Universidad Autónoma de Nayarit (UAN), Tepic, Mexico*
- P\_61** Biotoxicological assessment of occupational exposure to organophosphorus pesticides among employees of a national pesticide production company by the determination of plasma cholinesterase activity  
*B. Chefirat, H. Ouazzani, H. Rezk-kallah*  
*University Hospital of Oran, Algeria*
- P\_62** A biomonitoring, dermal and inadvertent ingestion sampling study of small quantity pesticide users in the horticultural and amenity gardening sector  
*A. Connolly, K. Jones, K.S. Galea, I. Basinas, L. Kenny, P. McGowan, M. Coggins*  
*National University of Ireland, Galway, Ireland*
- P\_63** Evaluation of health status and risk perception by the use and handling of pesticides in urban sprayers  
*J.F. Herrera Moreno, I.M. Medina Díaz, Y.Y. Bernal Hernández, B.S. Barrón-Vivanco, C.A. González Arias, J.F. López Flores, A.E. Rojas García*  
*Universidad Autónoma de Nayarit, Tepic, Xalisco, México*
- P\_64** Improving exposure assessment methodologies for epidemiological studies on plant protection products  
*K.S. Galea, I. Basinas, J. Cherrie, R.C.H. Vermeulen, H. Kromhout, K. Jones, A.-H. Harding, C. Sams, M. van Tongeren, A. Povey*  
*Health & Safety Executive, Buxton, UK*
- P\_65** Banana plantation workers: Occupational exposure to pesticides and health effects in Ecuador  
*H.P. Hutter, H. Moshammer, P. Wallner, S. Shahrukisanavi, H. Ludwig, M. Kundt*  
*Medical University of Vienna, Austria*
- P\_66** Stress protein and histopathology evaluation of two metallic insecticides in the midgut of the millipede Rhinocricus padbergi  
*R.B. de Souza, A.C.C. Marcato, C. Moreira-de-Sousa, Y. Ansoar-Rodríguez, M.P.M. Coelho, C.P. de Souza, O.C. Bueno, C.S. Fontanetti*  
*UNESP - São Paulo State University, Rio Claro, Brazil*
- P\_67** Pesticide residue analysis in hair and nails  
*R. Nijssen, M. Savova, H. Mol*  
*RIKILT – Wageningen University & Research, Wageningen, The Netherlands*
- P\_68** Relationship between micronuclei frequency and antioxidant enzyme activities in workers occupationally exposed to pesticides  
*M.C. Xotlanihua Gervacio, I.M. Medina Díaz , B.S. Barrón Vivanco, Y.Y. Bernal Hernández, C.A. González Arias, M. Sordo Cedeño, A.E. Rojas García*  
*Universidad Autónoma de Nayarit, Tepic, Mexico*

**14:30-15:00 Keynote lecture 5.**

Chair: Gunnar Johanson (SE)

**Air pollution stress and the ageing phenotype**

*Tim Nawrot*

*Hasselt University & Leuven University, Belgium*

**15:10-16:40 Oral communications Session 5.**

**Metals**

Chairs: Lars Barregard (SE) and Alfred Bernard (BE)

**Promoting health in small and artisanal mining of gold (PROSAMICO) – A feasibility study for human biological monitoring of mercury exposure**

*I. Ottenbros, R.Z. Boerleider, B. Jubitana, J. Quik, N. Roeleveld, Paul T.J. Scheepers\**

*\*Radboudumc, Nijmegen, The Netherlands*

**Urinary mercury excretion in Bolivian workers and families engaged in small scale gold mining**

*Jean Grassman\*, J. Caravanos, G. Johnson, Z. Cheng*

*\*CUNY Graduate School of Public Health and Health Policy, New York, USA*

**Biological monitoring of exposure to selenium compounds in workers of the selenium processing industry**

*Thomas Göen\*, J. Hildebrand, A. Greiner, H. Drexler*

*\*University of Erlangen-Nuremberg, Erlangen, Germany*

**Metal exposure and oxidative stress in Tunisian electric steel foundry workers**

*Laura Campo\*, M. Hanchi, S. Sucato, E. Polledri, D. Saidane Mosbahi, S. Fustinoni*

*\*University of Milan and Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milan, Italy*

**Annual trends in general population exposure to cadmium: Studies in Japan, Korea and China**

*Masayuki Ikeda\*, T. Watanabe, H. Nakatsuka, S. Shimbo, C.-S. Moon, H.-R. Yang, P. Wang, Z. Zhang*

*\*Kyoto Industrial Health Association, Japan*

**Manganese and lead levels in settled dust in elementary schools are correlated with biomarkers of exposure in school-aged children**

*J. L. G. Rodrigues, M. J. Bandeira, C. F. S. Araújo, N. R. dos Santos, A. L. S. Anjos, N. Koin, L. C. Pereira, S. S. P. Oliveira, D. Mergler, José Antonio Menezes-Filho\**

*\*Federal University of Bahia, Brazil*

**15:10-16:40 Oral communications Session 6.****Biomonitoring in risk assessment**

Chairs: Giuseppe De Palma (IT) and Peter J. Boogaard (NL)

**Using biomarker data to establish a benchmark dose limit for perfluoro-octanoic acid (PFOA)**Tony Fletcher\*, L. Stayner*\*Public Health England & London School of Hygiene and Tropical Medicine, London, UK***Levels of speciated arsenic in urine from the Canadian health measure survey and using biomonitoring equivalents for estimating risk**Annie St-Amand\*, M. Croteau, M. Guay, A. Vézina, R. Charron, K. Werry*\*Health Canada, Ottawa, Canada***Italian reference values of elements in urine: the example of chromium and nickel**I. Iavicoli, M. Bettinelli, P. Lovreglio, S. Negri, L. Perbellini, A. Perico, M.C. Ricossa,F. Salamon, Maria Cristina Aprea\**\*USL Toscana Sud Est, Siena, Italy***Improving risk assessment of vineyard mancozeb applicators by integrating environmental and biological monitoring results**Stefan Mandic-Rajcevic\*, F.M. Rubino, E. Ariano, D. Cottica, S. Neri, C. Colosio*\*University of Milan and International Centre for Rural Health of the San Paolo Hospital, Milan, Italy***Biomonitoring of leukotriene-mediated neuroinflammation for risk assessment of the toxic brain damage in methyl alcohol exposure**Sergej Zacharov\*, K. Kotikova, O. Nurieva, P. Kacer, P. Urban, M. Vaneckova, Z. Seidl,P. Diblik, P. Kuthan, T. Navratil, D. Pelclova*\*Charles University, Prague, Czech Republic***In-field personal cholinesterase assessment project (PCAP). A method of measuring cholinesterase insecticide exposures amongst farmers in Western Victoria, Australia**John Edwards\*, J. Cotton, T. Phillips, S. Brumby*\* Flinders University, Adelaide Australia*

**15:10-16:40 Special Session 3.**

**Antineoplastic drugs in urine**

Chairs: Rudolf Schierl (DE) and Cristina Sottani (IT)

**Biomonitoring of antineoplastic drugs in urine: Pros and Cons**

*Rudolf Schierl*

*University of Munich (LMU), Germany*

**Speciation analysis of antineoplastic platinum drugs in urine**

*G. Koellensperger, Stephan Hann\**

*\*University of Natural Resources and Applied Life Sciences, Vienna, Austria*

**Biomonitoring of platinum in urine after drug application by hyperthermic intraperitoneal chemotherapy and pressurized intraperitoneal aerosol chemotherapy**

*Sophie Ndaw\*, O.Hanser, M. Vidal, N. Bakrin, J. Passeron, A. Guilleux, A. Robert*

*\*Institut National de Recherche et de Sécurité (INRS), Vandoeuvre, France*

**A new, sensitive and versatile assay for quantitative determination of  $\alpha$ -fluoro- $\beta$ -alanine (FBAL) in human urine by using the reversed-phase ultrahigh performance-tandem mass spectrometry (RP-UPLC-MS/MS) system**

*Cristina Sottani\*, S. Collina, D. Santorelli, E. Grignani, D. Cottica*

*\*ICS MAUGERI SPA SB IRCCS, Pavia, Italy*

**Biomonitoring of antineoplastic drugs in urine of clinical staff**

*Michael J. Koller\*, R. Schierl*

*\*University of Munich (LMU), Germany*

**16:40-17:00 Coffee Break**

**17:00-18:30 Oral communications Session 7.****New developments in exposure biomarkers**

Chairs: Alessandro Alimonti (IT) and Gaku Ichihara (JP)

**Hydrolytic cleavage products of globin adducts in urine as a new type of biomarkers. Studies in rats and humans**

Jaroslav Mráz\*, I. Linhart, I. Hanzlíková, Š. Dušková, L. Dabrowská, H. Chrástecká, M. Tvrďáková, R. Vajtrová

\*National Institute of Public Health, Prague, Czech Republic

**Diisocyanate-lysine conjugates in urine. A specific diisocyanate metabolite?**

Laura Kenny\*, K. Jones

\*Health & Safety Executive, Buxton, UK

**Suitability of different naphthalene metabolites for their application in biomonitoring studies**

Katrin Klotz\*, M. Zobel, A. Schäferhenrich, H. Drexler, T. Göen

\*Friedrich-Alexander University of Erlangen-Nuremberg, Erlangen, Germany

**17:00-18:30 Oral communications Session 8.****Genetics, epigenetics and omics**

Chairs: Betzabet Quintanilla-Vega (MX) and Sahoko Ichihara (JP)

**Biological monitoring of low level exposure to benzene in a refinery: Effect of modulating factors**

Mariella Carrieri\*, G. Spatari, D. Doria, M.E. Fracasso, G. Tranfo, G.B. Bartolucci, M.L. Scapellato, M. Manno

\*University of Padua, Italy

**Pesticides and health in agriculture. Genetic damage and susceptibility**

C. Costa, J. García-Lestón, S. Costa, V. Valdiglesias, S. Bonassi, B. Laffon, J. Snawder, Joao P. Teixeira\*

\* Portuguese National Institute of Health, Porto, Portugal

**Associations between apolipoprotein E genotypes and Hg concentrations in cord blood**

Ajda Trdin\*, I. Farnoga, J. Snoj Tratnik, A. Stajnko, D. Mazej, J. Marc, M. Krsnik, J. Osredkar, I. Prpić, O. Petrović, Z. Špirić, M. Horvat

\*Josef Stefan Institute, Ljubljana, Slovenia

**Identification of smoking-induced changes in DNA methylation in an epigenome-wide scan**

Sahoko Ichihara\*, M. Nakatuchi, T. Matsubara, G. Ichihara, M. Yokota, K. Yamamoto

\*Jichi Medical University, Shimotsuke, Japan

**NMR-based metabolomics of exhaled breath condensate from subjects after low-level occupational exposure to chemical mixtures**

Mauro Maniscalco\*, I. lavicoli, M. Manno, D. Paris, D. Melck, N. Chiariello, F. Di Napoli, A. Motta

\*ICS Maugeri SPA IRCCS, Telese Terme, Italy

**Discrimination of carbon black particles – loaded with different concentrations of diesel engine exhaust – using untargeted metabolomics combined with cellular assays**

M. Pink, N. Martner, N. Verma, Simone Schmitz-Spanke\*

\* Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU), Erlangen, Germany

**17:00-18:30 Special Session 4.**

**Alternative matrices**

Chairs: Jackie Morton (UK) and Giovanna Tranfo (IT)

**Determination of phthalate metabolites in amniotic and cerebrospinal fluids**

Giovanna Tranfo\*, E. Paci

\*INAIL, Rome, Italy

**Chromium speciation in exhaled breath condensate: Improved risk characterization?**

E. Leese, Jackie Morton\*, P.H.E. Gardiner, V. A. Carolan

\*Health and Safety Executive, Buxton, UK

**Determination of mercury in hair of children**

F. Petrucci, O. Senofonte, G. Forte, C. Majorani, Anna Pino\*, B. Bocca, A. Alimonti

\*Istituto Superiore di Sanità, Rome, Italy

**Hair analysis for biomonitoring of human exposure to organic pollutants**

Radu Cornelius Duca

Catholic University of Leuven, Belgium

**Alternative strategies for the analysis of nanoparticle corona**

Mario Pink\*, N. Verma, W. Lin, D. Segets, S. Schmitz-Spanke

\*Institute and Outpatient Clinic of Occupational, Social and Environmental Medicine, Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU), Erlangen, Germany

**09:00-11:00 SCOT-SCOEL Joint Session.**

**Biological limit values and biological guideline values:  
an international overview**

Chairs: Kate Jones (UK) and Len Levy (UK)

**The biological exposure indices (BEIs®) of ACGIH®- Concept, framework and practical application**

*Michael Bader*

*BASF SE, Ludwigshafen, Germany*

**The SCOEL approach to biological limit values and biological guidance values**

*Gunnar Johanson*

*Karolinska Institutet, Stockholm, Sweden*

**The German approach for the recommendation of biological limit and guideline values**

*Hans Drexler*

*Friedrich-Alexander University of Erlangen- Nuremberg, Erlangen, Germany*

**Derivation of occupational biological limit values and biological reference values at the French Agency for Food, Environmental and Occupational Health & Safety**

*Claude Viau*

*University of Montreal, Canada*

**Biological monitoring without limits**

*John Cocker\*, K. Jones*

*\*Health and Safety Executive, Buxton, UK*

**11:00-11:30 Coffee Break****11:30-12:00 Keynote lecture 6.**

Chair: Antonio Mutti (IT)

**What can metabolic profiling and the exposome tell us about chemical risks?**

*Elaine Holmes*

*Imperial College, London, UK*

**12:00-12:30 Keynote lecture 7.**

Chair: Maurizio Manno (IT)

**Ethics and biomonitoring: what are the ingredients for a successfull combination?**

*Karel Van Damme*

*University of Leuven, Belgium*

**12:30-12:45 SCOT Celebration.** Hosts: Sergio Iavicoli (IT) and Kate Jones (UK)

**12:45-13:00 Closing remarks**

Under the auspices of

*Ministero della Salute*

We are grateful for the support of
