

Editorial Office

BMC Pregnancy & Childbirth

October 29, 2020

Dear *BMC Pregnancy & Childbirth Team*,

I'm writing this letter because I'm interested in becoming an Editorial Board Member for *BMC Pregnancy & Childbirth*.

I'm a Researcher working at Department of Neurosciences, Reproductive Science and Dentistry of University Federico II of Naples. I have been involved in management of high risk pregnancies and prenatal diagnosis, as documented by several publications.

Moreover, I have been working in the field of pregnancy and childbirth in low and middle income countries during my internship at World Health Organization and I'm still collaborating with Lacor Hospital in Northern Uganda, helping with data analysis and statistics. Therefore, I really think I could give a contribution to Your journal.

I have been a reviewer for several papers submitted to *BMC Pregnancy & Childbirth* and I published as Corresponding Author in your journal.

I'm sure this experience could improve my research background and I would be very glad for a positive answer.

Looking forward to hearing from you soon.

Best regards,

Laura Sarno, MD, Ph.D.
